

E-ARCHIVING

Simple importing and reviewing of documents.
Tailored to the needs and wishes of the client.

E-ARCHIVING

Reliable and accessible everywhere

- Provider of the Post of Slovenia's accredited archive
- Web interface for access to the archive
- Secure and reliable storage in two centres with the highest level of security more than 100 km apart
- Quick search and a simple review
- Adapted to the number of users and type of documents

Why e-Archiving via EPPS?

- Documents readily available
- Storage in accordance with the highest security standards
- Interface adapted to our customer's needs (storage of different documents with metadata definition)
- It facilitates the automated capture, storage and management of an individual or a large number of documents
