Remote printer for your digital office

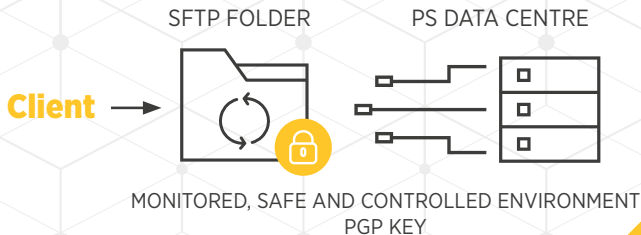

Simple use and the forwarding of daily post for remote printing and delivery.

- Install the application on your computer
- Prepare invoices, letters and other post
- Print from any programme, as if you were printing on your own printer – instead of printing documents on your own printer, you print them on a remote printer
- EPPS then takes care of the printing, insertion of the material into envelopes and their delivery to the post office
- The application also includes a delivery log – automatic completion

Why EPPS remote printer?

- Get rid of paper in your office
- Save time and money
- No more manual printing, preparation of postal items, and delivery to the post office
- Better overview of the entire outgoing post
